# K72

## CLOSED-BACK HEADPHONES

### HIGHLIGHTS

- » **Professional 40mm drivers**  
for accurate bass reproduction and clear highs
- » **Over-ear design and lightweight construction**  
provides exceptional comfort for long sessions
- » **Closed-back design**  
eliminates audio bleed and maintains privacy
- » **Single-sided cable**  
for ease of use

### APPLICATIONS

- » Project Studio Monitoring
- » Home Recording
- » Rehearsal & Tracking

## FOR PROJECT STUDIOS, REHEARSALS AND TRACKING

AKG K72 over-ear, closed-back headphones bring powerful audio performance to project studios and rehearsals. Professional 40mm drivers deliver precise sound - from tight, detailed bass to clean, clear highs - without hype or coloration. The unique self-adjusting headband provides a personalized fit, ensuring serious comfort during marathon sessions. With a lightweight yet durable design, professional-quality components and replaceable earpads, K72 is built to last.
